

ANACRYPTIC

by Emily Cox and Henry Rathvon

Solve this as you would a regular Anacrostic; that is, the initial letters of your answers will spell the name of the author and the source of the quotation.

But remember, the clues are cryptic-style, and the quotation itself is, well, a bit unusual.

nated row. Their proper positions are cemented down by Down words 1.-10., which are entered normally in the order listed. Masons of note will be spelled out by the ten letters projecting at the sides of the wall. Answers include seven proper nouns. SOLUTION IS ON PAGE 70.
